

Children & Young People Term Time Breaks

Autumn Term 2024

Social Life
Opportunities

Our SMBC-funded term-time targeted short breaks are carefully designed to provide enjoyment, promote skill development, and foster independence for children and young people with disabilities. Led by our trained staff, these breaks create safe and fun opportunities for children to connect and learn, whilst providing respite for parents and carers. Before joining a break, children must be registered with SoLO and go through an assessment to determine the best opportunities based on their support needs.
